Introducing the new SPILLERS Supplements range

Published May 14, 2025

We understand your horse’s wellbeing is your top priority which is why we are excited to launch our new range of powerful pelleted supplements. Our nutrition and veterinary experts have drawn on 65+ years of experience in developing feeds to formulate a range of targeted supplements to support your horse’s health and performance. What’s more, our recipes have been tried and tested by horse owners, delivering results you can see.

Powerful pelleted supplements

We’ve taken the best lessons from nature and combined them with what we’ve learned through science to develop a range of six, powerful supplements, each targeted to support a specific area of your horse’s health, wellbeing or performance. The ingredients for every supplement have been chosen for their efficacy, safety and traceability, while the pelleted format reduces waste, ensuring nothing is left behind in the bowl.

Transparent recipes

We believe in being totally transparent, which is why we declare the level of active ingredients per daily serving on pack and online, allowing you to make an informed choice.

Environmentally conscious

Here at SPILLERS, we're committed to supporting the environment. All six supplements come in 3kg recyclable pouches (30 days' supply for a horse) that contain 30% recycled plastic, and a sustainable scoop made from cardboard.

The range at a glance…

- **SPILLERS Flex** contains a rich blend of ingredients to help maintain joint health and comfort, including glucosamine, MSM chondroitin sulphate, rosehips and boswellia. It's ideal for all horses that may benefit from added joint support, including seniors and those competing regularly.

- **SPILLERS Calm** includes a high level of magnesium alongside B vitamins, yeast and

traditional calming herbs to support nervous, spooky and excitable horses.

- **SPILLERS Hoof Health** is ideal for horses and ponies with slow hoof growth or issues such as dry, brittle or cracked hooves. The high biotin formula includes the essential amino acids lysine and methionine, alongside copper, zinc, MSM, rosehips and hawthorn.

- **SPILLERS Ulca Ease** provides targeted gastric support to help maintain a healthy stomach lining, including lecithin, apple pectin, a marine source of bioavailable calcium, liquorice root and fenugreek. It’s ideal for horses prone to or at risk of gastric ulcers when fed as part of suitable diet.

- **SPILLERS Instant Energy** is a unique formula designed to encourage a focused and energetic performance without unwanted calories or starch. It includes a blend of rapidly and moderately available carbohydrate sources alongside branched chain amino acids, yeast and ginseng**.**

- **SPILLERS VENTIL-ATE** is scientifically proven to reinforce natural lung defences and ideal for horses that are stabled for long periods, travel frequently or sensitive to pollen. It includes a high level of bioavailable vitamin C which is proven to support lung health from within, alongside vitamin E, selenium, spinach, broccoli, rosemary, garlic and nutmeg. It’s a rebrand of WINERGY VENTIL-ATE and is the same great formula.

BETA® NOPS approved

Just like our feeds, all SPILLERS supplements are BETA® NOPS (British Equestrian Trade Association, Naturally Occurring Prohibited Substances) approved. If you’re competing under rules, make sure all the feeds and supplements you use are BETA® NOPS approved (look the logo on pack).

What did horse owners have to say?

- **SPILLERS Flex (Ella Weeks and Oscar)**: *Very effective and extremely palatable. I would certainly recommend it to my friends.*

- **SPILLERSCalm (Sarah McGinn and Feathers):** *Feathers became more relaxed almost overnight. She is currently in rehabilitation for kissing spines and was full of anticipatory anxiety. She became much more confident and trusting and the explosions she had become renowned for didn't happen.*

- **SPILLERS Hoof Health (Denise Williams and Maddie):** *A highly palatable supplement, encouraging healthy hoof growth. Thank you for including us in the trial. I will definitely buy some when it's released.*

- **SPILLERS Ulca Ease (Lucy Sentance and Pai):** *Easy to feed, smells lovely and very palatable. Excellent ingredients and definitely works on my very fussy mare. Absolutely love it and would definitely buy it in the future.*

- **SPILLERS Instant Energy (Victoria Tyler and Finn):** I *was dubious about an energy supplement trial, as I thought it either wouldn’t make a difference to my horse’s energy or he would fizz up. He didn’t fizz up and he has definitely had more energy! He’s better going forward and not tiring as easily. Highly palatable energy supplement that actually works without the “fizz”. I was sceptical and I was proved wrong!*

- **SPILLERS VENTIL-ATE (Jane Chapple-Hyam):** *I’ve found that Ventil-ate has aided many of my Racehorses over a number of years, especially supporting their respiratory systems with winning results. When mixed into their evening feeds my horses all lick their bowls clean.*

Tailored advice

Our dedicated team of nutrition specialists are available to offer advice on all aspects of your horse’s diet including feed, forage and supplements. For specific advice tailored to your horse’s individual needs, contact the SPILLERS Care-Line.
